

Imaduddin Abdul Karim

Multi-platform Mobile Application Developer

An 8-semester Telecommunication Engineering student from Telkom University with a wide interest and passion for technology and programming who enjoys taking on new projects and facing new challenges. Previous experience in laboratory organizations has given me good time management, leadership and communication skills. I love learning new things, especially in the areas of mobile development, artificial intelligence and data science. In addition, I have experience in the field of graphic design.

 Bandung, West Java, Indonesia
